## Autumn Jazz® Arrowwood Viburnum

*Viburnum dentatum* 'Ralph Senior'

A superior clonal selection of a popular landscape shrub with excellent uniformity, consistent ornamental character and good fall color.

---

### Botanical Name

*Viburnum dentatum* 'Ralph Senior'

### Family

Caprifoliaceae

### Common Name

Autumn Jazz® Arrowwood Viburnum

### Origin

Selected by Ralph Synnestevedt, Sr. of the Synnestevedt Nursery Company, Round Lake, Illinois.

### Hardiness

U.S.D.A. Zone 3

### General Description and Habit

A deciduous, multi-stemmed shrub with excellent uniformity and a pronounced upright-oval habit.

### Size

Grows 10' to 12' in height with a 6' to 8' spread in 10 years.

### Growth Rate

Medium

### Ornamental Characteristics

#### *Foliage*

Dark green, slightly pendulous, with glabrous, colorful red petioles.

#### *Flowers*

Creamy white, flat-topped, 3" to 4" in diameter, late May to early June.

#### *Fruit*

Dark metallic blue to blue-black clusters of berries, September to October.

#### *Fall Color*

Depending on weather conditions, an appealing kaleidoscope blend of yellow, orange, red and burgundy, late October into November.

### Culture

Easily transplanted B & B or from containers. Adapts well to a broad spectrum of soils in full sun or partial shade.

### Pest and Disease Resistance

Excellent. No serious problems observed.

### Landscape Value

Excellent in shrub borders, groupings, hedges and screens or naturalized with native ornamentals to attract wildlife during fruit set.

### Propagation

Softwood cuttings.
